

Abrasives In Action

From The Abrasive Solutions Company

Jumbo Flapdisc

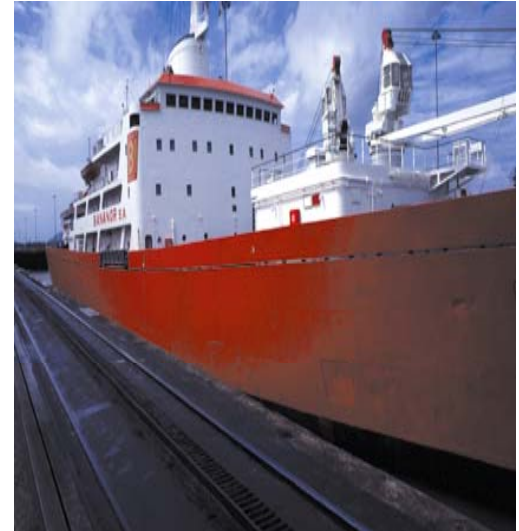

In The Shipyard Industry

Garryson Premier disc has up to 60% more cloth than a standard flapdisc. The result is a longer lasting quality flapdisc that delivers a consistent and excellent surface finish throughout out its service life. The extra cloth creates a cushioned effect making it ideal for blending, contouring and finishing

Application

For safety reasons, many shipyards require that a certified person fits all grinding discs to the appropriate grinder. This often results in significant downtime if this person is not the actual grinder operator.

Garryson Premier flapdisc have been proven to generate large cost savings – over 360 man hours were saved in one shipyard alone, by reducing the number of disc changeovers per shift because of the longer disc life.

Type A aluminium backed

Dia	Bore	Alox	Zirc	Max Speed r. p. m
100mm (4")	16mm (5/8")	JAA100	JAZ100	15,300
115 (4 1/2")	22mm (7/8")	JAA115	JAZ115	13,300
127mm (5")	22mm (7/8")	JAA127	JAZ127	12,000
178mm (7")	22mm (7/8")	JAA180	JAZ180	8.600

Type B glass fibre backed

Dia	Bore	Alox	Zirc	Max Speed r. p. m
100mm (4")	16mm (5/8")	JBA100	JAZ100	15,300
115 (4 1/2")	22mm (7/8")	JBA115	JAZ115	13,300
127mm (5")	22mm (7/8")	JBA127	JAZ127	12,000
178mm (7")	22mm (7/8")	JBA180	JAZ180	8.600
