

Abrasives In Action

From The Abrasive Solutions Company

Garryson MX

Cotton fibre reinforced abrasive wheels.

Specifically designed for the repair and maintenance on oil drilling equipment, Garryson MX cotton fibre reinforced abrasive type 1 wheels, are ideal for cleaning pipe threads and repairing fatigue cracks.

Application

Regular inspection of pipe work can avoid costly replacement and down time. Garryson MX is a cotton fibre reinforced abrasive wheel that will clean corrosion from thread roots and repair fatigue cracks without changing the overall dimensions.

Garryson MX Type 1 wheels are used on high-speed die grinders and run smoothly giving optimum control and superior surface finish.

Product Specifications: Examples

Part No	Size	Arbor	Grade	Pack QTY
MXT1 2020 Type 1 wheel	75mm x 1.5mm	6mm	A54 GFX	10
MXT1 2022 Type 1 wheel	75mm x 1.5mm	6mm	A54 MTX	10
MXT1 2025 Type 1 wheel	75mm x 3mm	6mm	A54 GFX	10
MXT1 2027 Type 1 wheel	75mm x 3mm	6mm	A54 MTX	10
